

MPACT®

MARINE PIPE AND CABLE TRANSIT

MPACT® MARINE RETROFIT SLEEVE

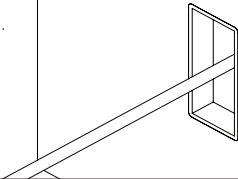

INSTALLATION INSTRUCTIONS

INSTRUCCIONES • MODE D'EMPLOI

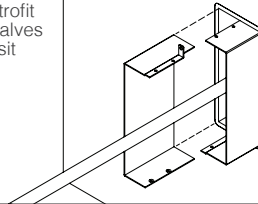

STEP 1

Remove all items from transit frame.

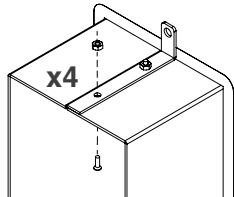

STEP 2

Insert retrofit sleeve halves into transit frame.

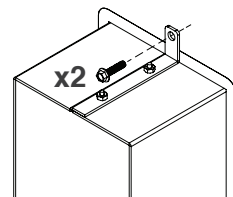

STEP 3

Fasten sleeve halves together using provided screws and nuts.

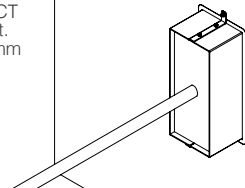

STEP 4

Attach assembled sleeve to steel division using two screws or tack welds.

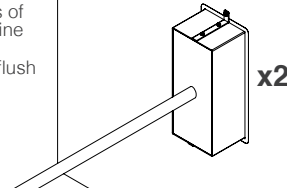

STEP 5

Install and center MPACT Filler Blanket. Recess 13 mm from both ends.

STEP 6

Install 13 mm thickness of MFS Marine Firestop Sealant, flush with both ends.

- All surfaces to be clean, sound, dry, frost-free and free of bond-breaking contaminants and loose material.
- For gas and watertightness, apply a bead of MFS Firestop Sealant to all outer seams between the frame/sleeve and between sleeve halves. Refer to Type Approval Certificate for additional information.
